## OBJECTIVE

---

Dynamic tech enthusiast excelling in DSA problem-solving. Adaptable and eager to contribute skills across diverse fields, with a special focus on creating captivating designs in frontend development.

## EDUCATION

---

Dr.D.Y.Patil Institute of Technology,Pimpri	Jul 2021-Jun 2025
<b>B.E in Information Technology</b>	<b>GPA:8.84/10.0</b>

Modern Junior College,Nigdi Pune	Jun-2020
<b>HSC</b>	<b>Percentage:89.60/100</b>

PCMC Urdu High School,Akurdi	Jun-2018
<b>SSC</b>	<b>Percentage:89.00/100</b>

## TECHNICAL SKILLS

---

<b>Web Technologies</b>	HTML5, CSS, JavaScript,React
<b>Programming Languages</b>	C, C++, Java
<b>Data Structures and Algorithms</b>	Proficient in solving complex problems using DSA principles
<b>Object Oriented Programming</b>	Having in depth knowledge about object oriented concepts

## EXPERIENCE

---

<b>Internship</b>	Dec 2023 - Jan 2024
<b>CodSoft</b>	<i>Remote</i>

Developed responsive web pages using HTML, CSS, and JavaScript to ensure compatibility across various devices.  
Designed interactive interfaces to enhance user engagement and accessibility.  
Implemented web technologies to create visually appealing and functional web pages.

## PROJECTS

---

### 1.InspireMe

Created a Quote Generator app using HTML, CSS, and JavaScript,enabling users to generate random quotes with a click.

- Utilized a third-party API to fetch dynamic and real-time quotes, enhancing the app's functionality and content freshness.
- Designed an intuitive user interface for seamless interaction, providing a visually appealing and engaging experience.

### 2.Movie Recommendation System

Developed a machine learning-based movie recommendation system as a group project.

- Collected and preprocessed movie and user data for training the recommendation algorithms.
- Implemented collaborative filtering and content-based filtering techniques using Python libraries such as scikit-learn and TensorFlow.
- Evaluated the performance of different models using metrics like RMSE and precision-recall.
- Integrated the final model to provide personalized movie recommendations based on user preferences and viewing history.

### 3.QuickNote - A React-Based Note Saver

QuickNote is a sleek, user-friendly note-saving application built entirely with React. It allows users to create, edit, delete, and organize their notes effortlessly.

The app features real-time updates and a responsive interface, ensuring smooth performance across devices. Designed with an intuitive UI, QuickNote simplifies the process of managing daily tasks and ideas, making it an essential productivity tool.

#### CERTIFICATIONS

---

- Problem Solving Certification From HackerRank
- Solved 150+ Questions on leetcode [LeetCode profile](#)
